

Vienna and Prague, date of release: Tuesday November 27th, 2018

Danube Angels finalize financing round for the Czech company BramborKing s.r.o.

Danube Angels GmbH, the financing network from Vienna, and the founders have successfully completed BramborKing's financing round. The investors of Danube Angels invested in a non-public offer in autumn 2018 a considerable amount in equity and thus hold a 33,36% stake in the Czech company. With this investment BramborKing will be able to open a second restaurant in one of the largest shopping centres in Central Europe, Chodov mall in Prague. Following the investment, the new restaurant will be officially opened on December 8th, 2018. Under the concept of "Smart Money", BramborKing will benefit in addition from the network of the Danube Angels Partners when preparing the franchise concept for further expansion.

BramborKing s.r.o.

BramborKing s.r.o. has its seat in Prague and was founded by Alexander Zaytsev and Egor Vorobev. The company started operations in 2017, by opening its first restaurant in the shopping centre Eden in Prague 10. Under the slogan and promise of the company "fresh, tasty and hot!" BramborKing combines the essence of front cooking with fast food from fresh ingredients, which is unique on the Czech market. The main product is a 500 gram calibrated potato with four different fillings and with the option of up to 16 fresh salads. A meal in four easy steps: 1) The potato of a Dutch variety named Melody 2) is baked right in front of the eyes of the customer 3) is filled up with cheese, butter and other optional fillings 4) and complemented with a delicious mix of fresh salads, freshly and immediately prepared after ordering by the customer.

The equity investment by the Danube Angel investors allowed for the completion for the new restaurant in Chodov, one of the largest shopping malls in Central and Eastern Europe. The business planning foresees further growth by exploring opportunities with new own shops and the development of a franchise system alike.

Danube Angels GmbH

Danube Angels GmbH was founded in 2017 by four partners, who already own successful companies in the fields of tax advisory, business consulting, legal advice and financing, to make use of the new legal possibilities of crowd financing ("crowd-investing") in Austria. Danube Angels GmbH has set itself the goal of bundling the expertise of the respective fields of the partners and thus creating significant added value for investors and target companies. Instead of the often unmanaged crowd, there is a network of well-informed investors – network beats crowd.
